Hinsdale- For The Good of Illinois PAC unequivocally endorses David McSweeney for the Republican nomination for the 52<sup>nd</sup> House District.

“In Springfield, David McSweeney will champion the principles of transparency, accountability and limited government,” said Adam Andrzejewski, Chairman of For The Good of Illinois PAC. “I am confident that McSweeney will execute on full transparency and not stop until ‘every dime’ of state spending is online. As a businessman, he will ‘follow the money’ with deep audits. As a friend to taxpayers, McSweeney will cap the size and growth of state government.”

David McSweeney has a proven track record that defends hard working families, small business owners and entrepreneurs. Illinois has an acute need for bold, independent leadership.

As a candidate, McSweeney’s top priority is to repeal the 67% income tax hike and to freeze property tax levies. These taxes are crushing private sector jobs and stopping small business creation. *In fact, Cook, Kane, Lake and McHenry counties are all ranked in the top 100 across the nation for the highest property taxes.*

McSweeney will usher in a new era in Springfield. State representative is a part-time position with a gold-plated pension. McSweeney will decline and spearhead efforts to cut legislative pensions.

“Long ago David McSweeney decided to issue the clarion call and tell citizens exactly what it would take to bring Illinois back. As state representative, David McSweeney has the independence to be a driving Republican force and outstanding leader,” said Adam Andrzejewski.
